

MEN'S 9 HOLLERS

Best Ball Tournament

(Not to be confused with scramble)

\$5.00 Entry Fee

Feb 11, 2010

RULES:

Best ball will be played using 3 or 4 person teams.

Team format will consist of handicapped A, B, C, & D players (four person team). The player with the lowest handicap will be the team captain, responsible for keeping the score, enforcing proper golf rules/etiquette and turning in score card.

Handicaps will be taken from AGA. **If a player does not have a handicap, the member may not participate in the tournament, although he may be allowed to play outside the tournament on play day. Entry fee will still be charged and player may join after play for refreshments.**

Each player on the team plays their own golf ball throughout the round with the low net score or "best ball" of the group serving as the team score on each hole. It is best to wait until play is completed before determining which scores to utilize.

Teams with 4 players must use each players score for at least 2 holes while teams of 3 players must use each players score 3 times.

Scorecards will be created in advance. For each hole, for each player a handicap will be identified on the card by a number of dots. Each player's score will be recorded as gross and the handicap for each player applied to get a net score, then at the bottom of the card will be a line for the lowest net score selected for that hole to be recorded.

On each hole all balls must be puttied out in order to establish the lowest net score. If a player's score is considered beyond help then that player may pick-up and be ruled out of the hole.
